#### Transfer of Stevens School to Miner Building Objected To.

TAXPAYERS FILE A PROTEST

Argument Made That the Presence of the School Will Depreciate Values. Placards on Saloons Considered to Be Humiliating-Rapid Increase of Granolithic Paving-Ten-foot Area.

Prominent property owners in the northwest appeared yesterday before the District Commissioners, as stated in The Evening Times, and entered a protest against the transfer of the pupils of the Stevens School to the Miner building, at the corner of Seventeenth and Madison streets, as proposed, pending the repairs to the schoolhouse regularly occupied.

The objection is that while the occupancy s proposed to be but temporary, it is liable to become permanent, and that the presence of a colored school in that locality will de-

preciate values.

A member of the delegation declared that in case the school is permitted to occupy the building he would be willing toxell as property at fifty cents on the dollar. The Miner building has been occupied for two years past by the Business High School. After hearing the objections the Comssioners asked that the matter be left with them for further consideration,

promising to do what is possible to re-

WHO COMPOSED THE DELEGATION. The delegation consisted of Henry K. Willard, To F. Schneider, D. S. Hendrix, W. E. Schneider, J. B. Church, Boyd Smith, F. M. Evans, T. L. Holbrook and others, and they had a list of citizens who are inderstood to indorse the protest, which contained the names of Hon. W. L. Wilson, Postmaster General; Robert Christie ohnCameron, Thomas Redgath, H. G. Brickrachoff, Henry Burt, F. P. Jones, Gen Myers, J. K. Sailer, L. S. Brown, Heary A. Smith, Thomas Itolan, J. W. Harsha, John Tweedale, William Pond, John B. Wight, Hon, W. P. Kellogg, Rudolph Goldschmid and Dr. W. C. Fifler.

The salous keepers formully entered a test yesterday against the order passed y the excise board which requires a provby the excise board which requires a pros-sective saloon keeper to post a notice on the building where it is proposed to open a business, of his intention to apply for keeps. The order is that the placard shall remain upon the building until the application is disposed of by the board. The Liquer Feulers' Association held a meeting at Costello's Hall, on the 7th

instant, and after delating the question, appointed a committee to wait upon the eard, and, if necessary, to appeal to the Jordan, Hugh Cooprove, William McGuire Thomas Walsh and M. P. Sollivan.

These gentlemen called upon the excise board yesterday and presented their grievance. They were informed, however, that the order does not apply to established places, but only to new applicants and to applicants for transfer. LIKE A PESTHOUSE

They were better satisfied with this state f facts, but asked that the order be reagmiliating to man who claims to be can dying with the law to have his business souse placarded as though it were a pest-

The board declined to grant the request During the progress of the hearing it was feveloped that many saloon-keepers are under the impression that they are obliged night, and from the fact that no one is ights are left burning until Monday, thus

ere is no requirement for the burning of light after business bours and that it ed not by done except as a matter of pre-

As an evchence of the rapidity with which the old-style paving is being superseded it is stated that since the first day of July last 12,000 square yards of granolithic sidewalk have been laid. There were 26,-000 segare yards laid last year and for everal preceding years only from 4,000 s 6,000 annually.

It is anticipated that the total for this fiscal year will reach forly thousand square The hope of the Commissioners is to have the use of the granolith to become much

more general on account of its superior finish and great durability. MR. JOHNSON'S DILEMMA. The atmended building regulations, which equire ten feer of open area in the rear of buildings, for the purpose of securing air and light, caused a protracted dis-

ussion vesterday before the District Coming to argue for the rights of Mr J. H. Johnson, his client. It appeared from the discussion that Mr. Johnson had been to the building inspector as early as January last, to arrange for obtaining a permit for the construction of three dwellings at the corner

He was not then ready to begin the buildfor authority to proceed until July 10. He then discovered that on the 17th of June the regulations had been amended, Col. Truesdell stated that the order of nendment became a necessity.

Too many buildings," he said, "are put

up with the view to the number of dollars that can be made out of them, and regard s not paid to the comforts of the occu pants nor the sanitary provisions of the

It was finally decided to issue a permit pon condition that the main walls of the the line, and that the bay window pro-

street, will be closed. SMELL NEARLY UNBRARABLE.

Necessity of a Morgue Most Unpleas antly Shown at Sixth Precinct. The crying need of a new and properly entilated morgae for this city was never beiter illustrated than yesterday and last night. The body of the colored boy, Campbell Hall, lay in the ice box in a decomposing condition. The odors from the corpse were terrible, and filled the entire Kixth present station-house, in the rear of which the little lily-ventilated

room used as a morgue is located. During the day it was necessary to keep closed, in order to shut out some of the sickening smell. The bedrooms where the officers are compelled to sleep were also permented, and many of the patrolmer sought temporary relief by sitting in the flower garden in front of the stati It was suggested that Health Officer Woodward be called upon to remedy the evil and prevent possible sickness among the
